Lateral System Checkbox:

Reminder
Level 1 - Location
Level 2 - Category
Level 3 - Functional Class

Required (if applicable)
Indicates that if a structural component of your project exists at Level 2 Category than *at least* 1 component listed in Level 3 Functional Class shall be included. All Level 3 components included in the GWP given to SE 2050 shall be checked. If they are not checked it is assumed those structural components do not contribute to the GWP number provided.
